EU provisions concerning the placing on the market and the importation of live animals and ruminant products.

Final test

BTSF participant Satisfaction Questionnaire

Duration

The estimated duration of this eLearning module is circa 6/7 hours.

Please note that the effective duration of the learning process is influenced by some different factors:

- the initial background in this field
- the study method
- the attention dedicated to more readings such as in depth contents, useful links, etc.

Participants

Eligible beneficiaries are National Authority staff dealing with Prevention, eradication and control of Transmissible Spongiform Encephalopathies (TSE) issues in EU Member States, as well as in Non-EU Countries.
